### **Davis Street FRC Wellness Center**

The Medical and Dental Programs at Davis Street Family Resource Center include the RotaCare Free Acute Medical and Dental Clinic which serves over 1,000 uninsured and underinsured people each year and the Primary Care Clinic which serves 1200 people each year. The clinics are staffed entirely by volunteer doctors, nurses, pharmacists, physical therapists and social workers to provide quality, essential medical and dental services to individuals who otherwise would not be able to access adequate health care.

Davis Street Family Resource Center has grown the services over the last 13 years to include free immunizations, providing acute care and health management of chronic conditions such as hypertension and diabetes. We help those with the most need. Our physical therapy clinic is coordinated in partnership with Kaiser Permanente and their physical therapist residents.

The dental clinic provides cleanings, simple extractions and fillings for free or low cost to adults.

The newest member of our clinic programs is the Primary Care Clinic. In a unique partnership with Samuel Merritt University and their Family Nurse Practitioner and Physician's Assistant Programs, we are now able to provide primary care to uninsured and underinsured individuals, children and seniors.

### **CLINIC INFORMATION**

All of the clinics are FREE for uninsured and in some cases underinsured people. We serve patients on a first come, first served basis and therefore have limited capacity. Please call for more information: 510-347-4620.
